

How to Create and Implement Healthy General Plans

A toolkit for building healthy, vibrant communities through land use policy change

How to Create and Implement Healthy General Plans

A toolkit for building healthy, vibrant communities
through land use policy change

Written by Peter Stair, Heather Wooten, and Matt Raimi
Graphic design by Karen Parry | Black Graphics

Published in 2008 by Public Health Law & Policy and Raimi + Associates.

Public Health Law & Policy is a project of the Public Health Institute.

This publication is provided for general information only and is not offered or intended as legal advice. Readers should seek the advice of an attorney when confronted with legal issues, and attorneys should perform an independent evaluation of the issues raised in these materials.

Funded by The California Endowment.

Acknowledgements

This toolkit could not have been completed without the assistance of many people, a few of whom are listed below.

For their expertise and insight in reviewing this toolkit, many thanks to Fred Collignon, Paul English, Rajiv Bhatia, Caterina Roman, Heather Kuiper, Greg Gatzka, Wendy Cosin, Jane Adams, Jeff Vincent, Samantha Graff, and Randy Kline. Thanks also to Aaron Welch and Sue Beazley for writing and editing portions of the toolkit.

Thanks to Marice Ashe, Robert Ogilvie, Lisa Feldstein, and Hannah Burton Laurison for their careful reading and thoughtful comments. Thanks also to Carrie Spector and Kimberly Arroyo Williamson for additional editorial and production work.

Finally, thanks to the Cancer Prevention and Nutrition Section of the California Department of Public Health for its expertise and collaboration, and to The California Endowment for generously underwriting this publication.

Contents

Introduction	IX
Section I: Laying the Groundwork for Healthy Planning	1
Getting Started	3
Roles for Health Officials and Planners	9
Section II: Assessing Existing Health Conditions	11
Questions for a Baseline Community Health Assessment	13
Walkability and Bikeability Audits	19
Community Food Assessments	23
Section III: Writing a Healthy General Plan	25
The General Plan as a Tool for Change	27
Vision Statement	28
Land Use Element	28
Circulation/Transportation Element	29
Housing Element	29
Parks and Recreation Element	30
Public Facilities and Services Element	30

A Separate Health Element?	31
Typical General Plan Update Process	33
Using Standards to Implement Health Goals	35
Section IV: Model Health Language	37
Section V: Implementation Plans, Programs, Policies, and Standards	51
Zoning, Neighborhood Plans, and Development Standards	53
Zoning for Density, Mixed Use, and Transit Orientation	53
Form-Based Zoning	54
Zoning a Pollution Buffer	56
Zoning Out Liquor Stores and Fast Food Outlets	56
Conditional Use Permits	57
School Siting	57
Area Plans and Specific Plans	59
Parking Requirements	59
Crime Prevention Through Environmental Design	61
Road Designs and Standards	63
Multimodal Roadway Plans	63
Traffic Calming Strategies	65
Master Plans	67
Pedestrian Master Plans	67
Bicycle Master Plans	68
Parks and Recreation Master Plans/Level of Service Standards	69
Urban Forestry Master Plan	70

Project Review	73
Green Building Codes	73
Project Development Review Checklists	74
Health Impact Assessments	76
California Environmental Quality Act	76
Taxes and Fees: Financing Healthy Infrastructure	79
Conclusion	83
Appendix: Fact Sheets	85
Research on Land Use and Health from Two Different Perspectives	85
The Health Perspective on Planning: Built Environments as Determinants of Health	A1
The Planning Perspective on Health: Community Health as a Goal of Good Design	B1
