

**Directions:** As a class plants some Collards and Bok Choy seeds and water the seed and in a few days notice the growth of the seed.

Each day the children will observe the growth of the greens and record their progress. The children will then sketch the growth process on their growth charts. (Example: 1<sup>st</sup> sketch, the seed in the cup; 2<sup>nd</sup> sketch, the first sprout; and so on. The children will sketch until the plant is fully grown and ready for transplant.)
